Comprehensive Therapy Center Awarded CARF Accreditation

West Michigan – CARF has accredited Comprehensive Therapy Center as a pediatric family-centered outpatient rehabilitation facility for a period of three years. This is the first Three-Year Accreditation that Comprehensive Therapy Center has received from the international accrediting commission. “We are extremely pleased that our agency has earned this important accreditation,” says Jean Silbar, Executive Director. “We will be able to help even more children with disabilities to walk, talk, learn and play.”

An organization receiving a Three-Year Accreditation has put itself through a rigorous peer review process and has demonstrated to a team of surveyors during an on-site visit that its programs and services are of highest quality, measurable, and accountable.

Comprehensive Therapy Center serves the West Michigan special needs community with school based special education services and a summer outreach program, Therapy and Fun, which offers speech-language, sensory and motor therapies.

CARF is the accrediting body that establishes consumer-focused standards to help organizations measure and improve the quality of their programs and services.
